

Shodh, Psychiatry Palikadil Vatancha (Search for alternatives beyond psychiatric ways/care) is a Marathi translation of the original book titled “Alternatives Beyond Psychiatry”, edited by Peter Stastny, Peter Lehmann and Bhargavi Davar. Marathi is an Indian language spoken in the state of Maharashtra, India. The book has been translated and adapted to the local experiences and realities in an Indian context. A range of authors have come together (people with psychosocial disabilities, social scientists, therapists, psychiatrists, lawyers) and have described various alternatives to mainstream Psychiatry, implementation in their lives and communities and their collective experience. This book can be helpful for individuals and organizations who are looking at addressing their mental health needs and those of their communities beyond the ways of a biomedical model/psychiatric model.
